**LYMPHOMA
COALITION** 

The Global Patient Survey on Lymphomas & CLL

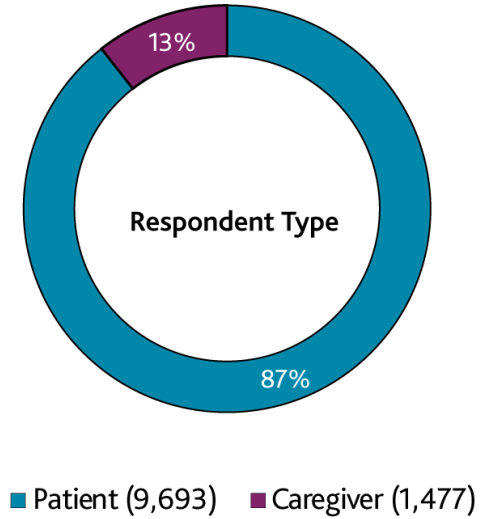

GPS 2024 Now Closed!

After 10 weeks in the field, the 2024 Global Patient Survey on Lymphomas & CLL has closed. **The final number of responses collected is a staggering, 11,170!**

The success of this year's survey could not have been possible without the incredible support from every single one of you. The fact that the 2024 survey structure was more complex and longer and still yielded a significant increase in responses compared to the 2022 GPS highlights the phenomenal teamwork by you all. The promotion of the survey across the regions has been so strong and it is amazing to see the increase in country reports for 2024; **a total of 23** are set to be developed, compared to 18 in 2022.

A heartfelt **THANK YOU** to each and every one of you, we know it was a long haul during a busy time of year, with competing priorities. Your ongoing support, week after week is something we are truly grateful for. The next steps include working through all of the data to develop the reports so we can share all of the valuable information in a meaningful way and ensure the voices of the **11,170 patients and caregivers** impacted by lymphoma and CLL are accurately represented in the work we do moving forward.

Below is a breakdown of the **11,170** survey responses by respondent type.

Survey Responses: By Member Countries

Please note this breakdown is based on the final data submitted and reflects the total number of survey responses submitted over the 10 weeks.

	Country	Responses
	France	1,890
	United Kingdom of Great Britain and Northern Ireland	1,204
	United States of America	1,167
	Australia	855
	Canada	809
	China	772
	Belgium	547
	Netherlands	530
	Italy	426
	Israel	336
	Bulgaria	306
	Republic of Korea / South Korea	272
	Argentina	153

Congratulations to the following **23 regions** who have **100+ patient respondents** and will be receiving a country report:

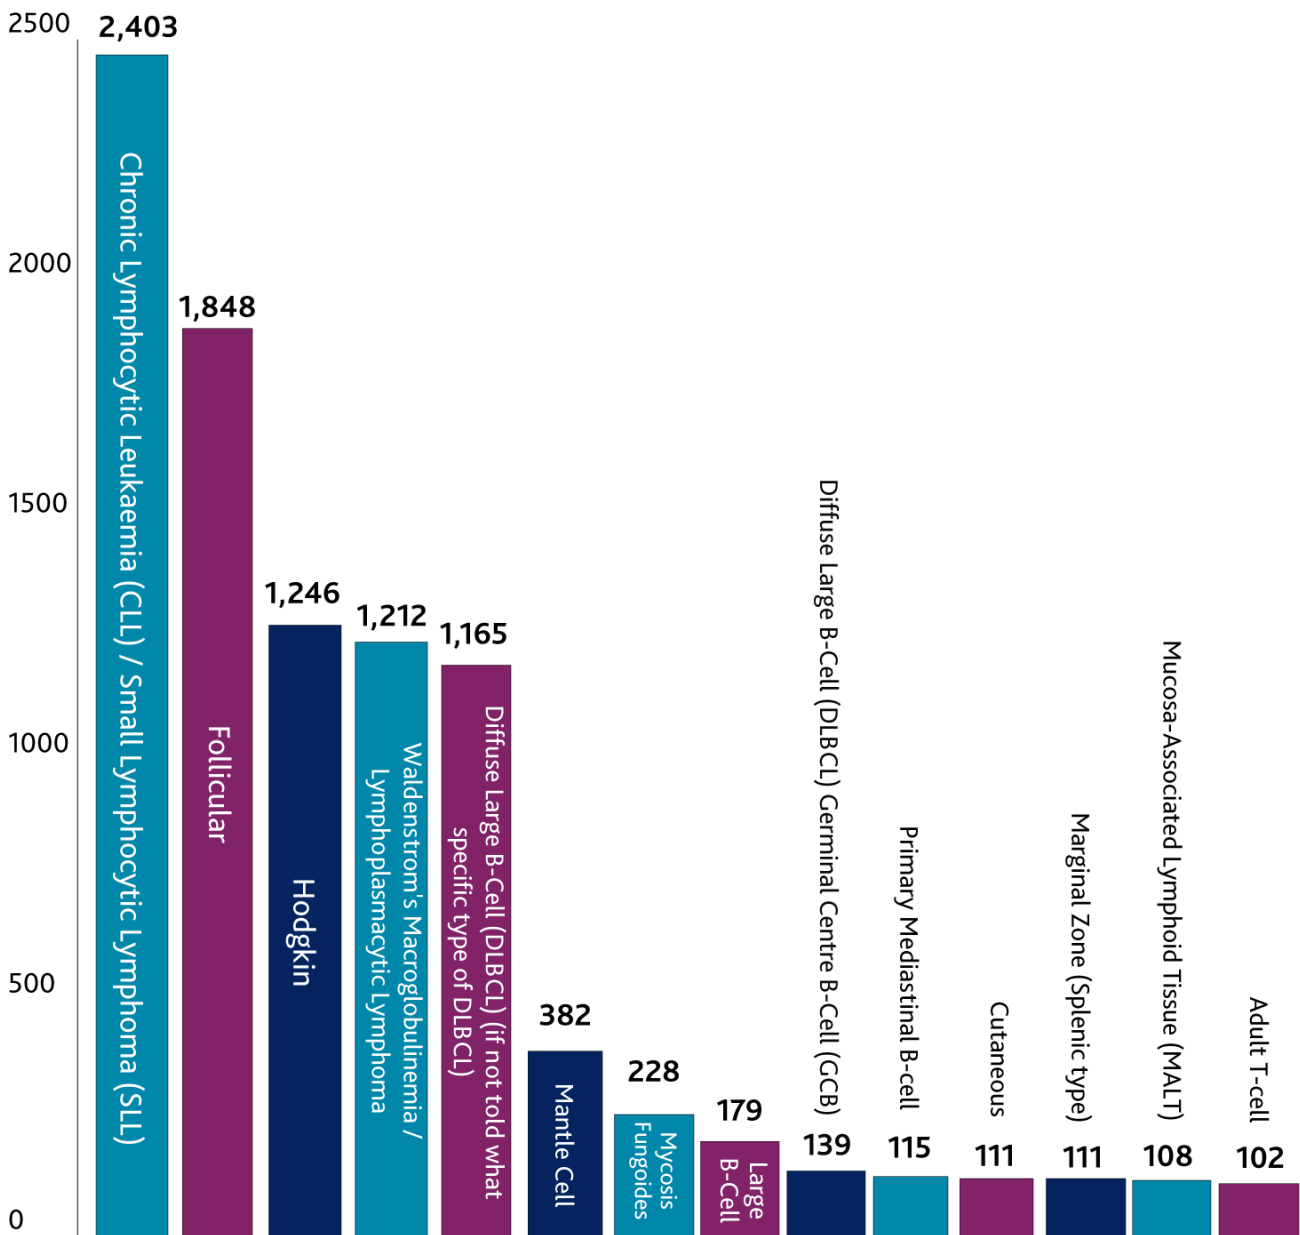

- France
- United Kingdom of Great Britain and Northern Ireland
- United States of America
- Australia
- Canada
- China
- Belgium
- Netherlands
- Italy
- Israel
- Bulgaria
- Republic of Korea / South Korea
- Argentina
- Slovakia
- Portugal
- Switzerland
- Serbia
- Ireland
- Germany
- Japan
- India
- Philippines

- Denmark

The country report will highlight the findings, which can be used for local planning to help ensure activities align with patients' needs, as well as advocacy efforts. In addition, Lymphoma Coalition can support your organisation with data needed for therapy approvals.

Survey Responses: By Subtypes

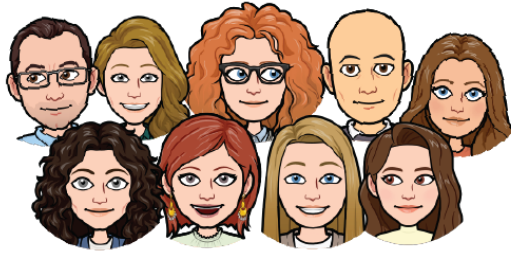

The following **14 subtypes** shown in the graph have surpassed 100 respondents.

The goal behind the GPS is to truly understand the current voices and values of adult patients and caregivers. We're confident we can now do this as a result of your hard work, helping to ensure we've heard from as many people as possible from around the world.

With deepest thanks,

Lymphoma Coalition Team
