# The Global Patient Survey on Lymphomas & CLL

### Week Four Update

We are pleased to report that since the survey opened one month ago, a total of **4,573** responses to the 2024 Global Patient Survey on Lymphomas & CLL have been submitted!

Your dedication to promoting the Global Patient Survey is making a real impact. Every share, every conversation, and every effort brings us closer to valuable insights that can improve patient care worldwide.

We're approaching the half-way point and know many of you have been working hard to promote the survey within your regions! Let's keep pushing, keep sharing, and keep advocating so more participant perspectives can be collected over the next month!

Here is the link directly to the survey, so you can continue easily sharing it:

Congratulations to the following **9 regions** who have **100+ patient respondents** and will be receiving a country report:

- United Kingdom of Great Britain and Northern Ireland
- France
- United States of America
- Netherlands
- Canada
- Belgium
- Italy

- Israel
- Bulgaria

The country report will highlight the findings, which can be used for local planning to help ensure activities align with patients' needs, as well as advocacy efforts. In addition, Lymphoma Coalition can support your organisation with data needed for therapy approvals.

Currently, there are **2,458** partially-completed surveys. If respondents use the same browser and have cookies enabled, responses to date will have been saved and they can pick up where they left off and complete the survey.

### Survey Responses: By Subtypes

The following 7 subtypes shown in the graph have surpassed 100 respondents and will have a subtype report.

### Friendly Reminders:

1. Host the information on your website.
2. Send an email to your membership, sponsors and other partners encouraging them to take the survey and pass the message along!
3. Share with your followers on social media.

As many of you are aware, our goal is to truly understand the current voices and values of adult patients and caregivers and to do this we need to hear from as many people as possible from around the world. This will ensure those impacted by lymphoma and CLL are accurately represented in the work we do moving forward, to improve care across the globe.

We greatly appreciate your continued support in promoting the 2024 Global Patient Survey. By working together, we will ensure those impacted by lymphoma are given the opportunity to share feedback about their experience and help shape the global lymphoma landscape.

With deepest thanks,

Lymphoma Coalition Team
