**LYMPHOMA  
COALITION** 

# The Global Patient Survey on Lymphomas & CLL

### Week Five Update

As we wrap up the fifth week of the 2024 Global Patient Survey on Lymphomas & CLL being in field, we have a total of **4,963 responses**.

We are experiencing a decrease in progress, with only **390** surveys completed globally in the last week.

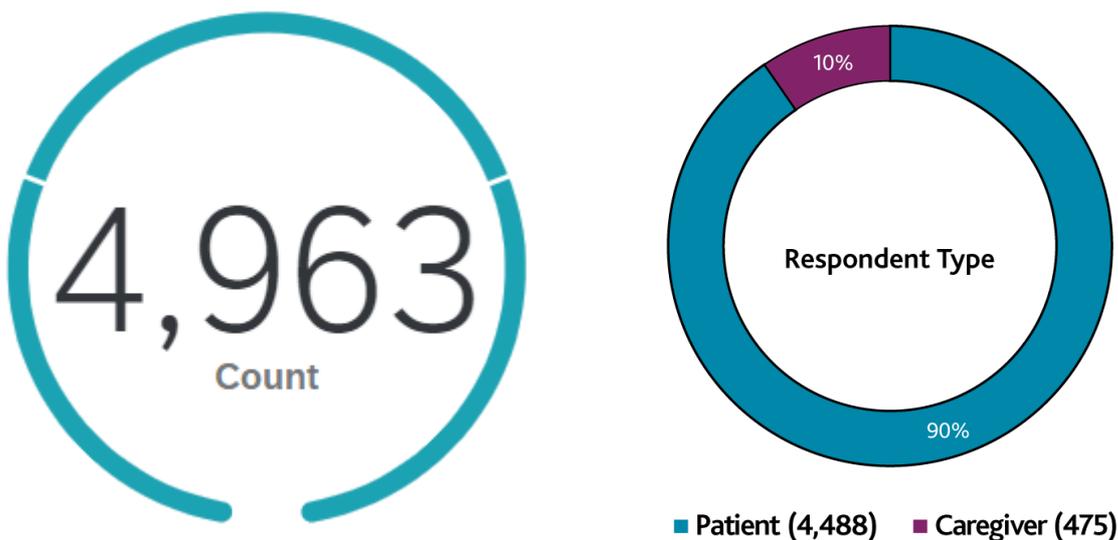

As we approach the half-way point with the survey we want to highlight how important it is that we all work together! Every response we get is a voice of someone we need to hear. One of the ways we can continue to do this is by encouraging others to co-operate in sharing the survey and using the materials to promote the survey. When we all co-operate and work together we can get stronger data which can help contribute towards valuable insights that can improve patient care worldwide.

We greatly appreciate your support in promoting the 2024 Global Patient Survey. By working together, we will ensure those impacted by lymphoma are given the opportunity to share feedback about their experience and help shape the global lymphoma landscape.

Let's keep pushing, keep sharing, and keep advocating so more participant perspectives can be collected over the next month!

Here is the link directly to the survey, so you can continue easily sharing it:

Congratulations to the following **12 regions** who have **100+ patient respondents** and will be receiving a country report:

- United Kingdom of Great Britain and Northern Ireland
- France

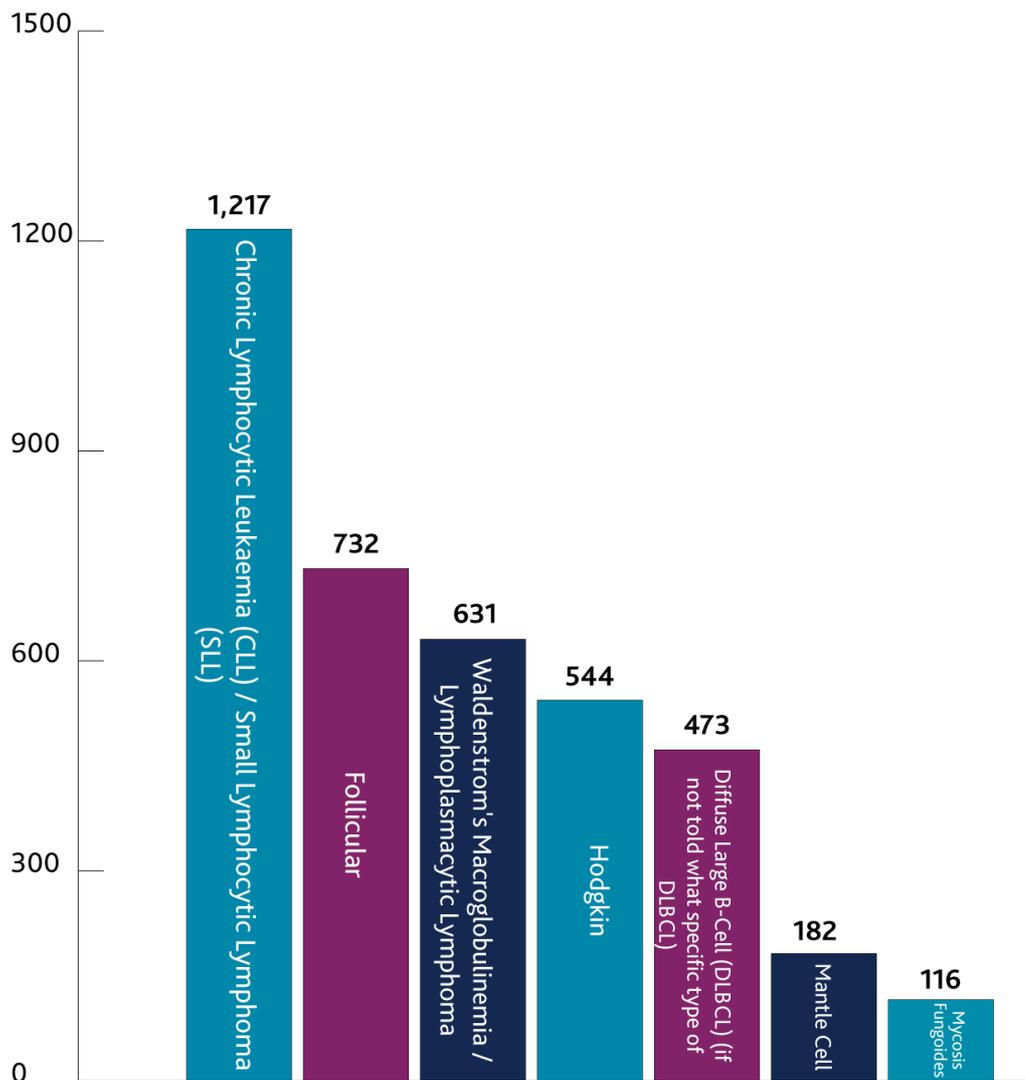

- United States of America
- Canada
- Netherlands
- Belgium
- Italy
- Israel
- Bulgaria
- Australia
- South Korea
- Serbia

The country report will highlight the findings, which can be used for local planning to help ensure activities align with patients' needs, as well as advocacy efforts. In addition, Lymphoma Coalition can support your organisation with data needed for therapy approvals.

Currently, there are **2,656** partially-completed surveys. If respondents use the same browser and have cookies enabled, responses to date will have been saved and they can pick up where they left off and complete the survey.

### Survey Responses: By Subtypes

The following 7 subtypes shown in the graph have surpassed 100 respondents and will have a subtype report.

### Friendly Reminders:

1. Host the information on your website.
2. Send an email to your membership, sponsors and other partners encouraging them to take the survey and pass the message along!
3. Share with your followers on social media.

As many of you are aware, our goal is to truly understand the current voices and values of adult patients and caregivers and to do this we need to hear from as many people as possible from around the world. This will ensure those impacted by lymphoma and CLL are accurately represented in the work we do moving forward, to improve care across the globe.

With deepest thanks,

Lymphoma Coalition Team
